- United States Coast Guard
- United States Agency for International Development
- Florida Ports Council
- Florida Seaport Transportation & Economic Development Council
- United States Department of Transportation
- Maritime Security Institute

Company Expertise

SeaSecure's experience has led to the creation of a highly acclaimed, proprietary methodology for evaluating seaport, port facility, critical infrastructure, and vessel security policies, operational procedures, and manpower. This methodology ensures compliance with the requirements outlined in both the International Maritime Organization's (IMO) International Ship & Port Facility Security (ISPS) Code and the US Maritime Transportation Security Act (MTSA) of 2002. SeaSecure has collaborated with a wide array of governments, international organizations, and law enforcement agencies on the content of maritime security laws and regulations, and was appointed to the US Senate Port Security Advisory Committee. SeaSecure's unmatched qualifications fuse regulatory compliance with a demonstrated return on investment (ROI), ensuring that every recommendation makes both regulatory and business sense.

Staff Experience

- Members of our staff serve as senior instructors in maritime and energy security, regulatory compliance, and counterterrorism at such prestigious institutions as the Federal Law Enforcement Training Center and the US Coast Guard Training Center
- Several staff have been appointed to the Marine Transportation System National Advisory Council; the Maritime Security Council; and, a US Coast Guard Area Maritime Security Committee
- Our staff have exceptional professional credentials, including tenure at the Central Intelligence Agency, the U.S. Army's Special Forces, U.S. Navy, U.S. Coast Guard, and the Department of Defense, including at the "Assistant Secretary" level
- Staff members have extensive maritime and energy backgrounds, including assignments with ocean carriers, cruise lines, terminals, and ports
