**Hose Assemblies:** Aero Hardware & Supply maintains the most capable hose shop in the industry. Our shop has FAA, PMA, and TSOA approval. We manufacture Eaton Aeroquip Aerospace hose assemblies for fuel, oil, hydraulic, and skydrol applications, for all aircraft types.

**Repairs:** FAA and JAA authorized hose assembly repair station. FAA/FAR-145 certificate # KE4R307M. JAA/JAR-145 certificate # JAA.5910.

**Couplings:** Hydraulic quick disconnects for aerospace and ground support applications.

**Clamps, Gaskets, Flanges, Ducts:** Master distributor for Aeroquip Marman and Grimes Janitrol Division. Distributor for MSP's instrument clamps and casings.

**Rynglok:** Aeroquip's state of the art portable hydraulic tube repair system.

**Tubes and Ducting:** Distributing for Industrial Tube; hose, ducting, flexible connectors and molded silicone products for ground support and aerospace applications.

**Cargo Control:** Distributing for Kinedyne; buckle, track fittings and straps.

**Cross-References:** Extensive cross-reference library, including manufacturer's part numbers, military specifications, and national stock numbers (NSN's).

**EDI:** Capable via Spec 2000, ANSI X.12, and e-business via the internet at [www.aerohardware.com](http://www.aerohardware.com).

**Bar Codes:** Full bar coding capabilities, including the latest MIL-STD-129P.
