

# CUMBERLAND

*beautiful objects that work*

We want to thank you for your interest in Cumberland Furniture. At Cumberland Furniture, we believe that you and your office deserve beautiful objects that work. Therefore, each of our products is manufactured with the highest quality materials by expert craftsmen that take pride in the quality of the products they produce. Each one of our products is beautiful, durable and reflects the beliefs of our mission statement.

## Mission Statement

Cumberland is a sophisticated design leader, creating a thoughtfully edited collection of classic products through collaborations with well-respected designers from the U.S. and abroad who understand the industry.

Cumberland will offer products that address the technology capabilities of the day within well integrated design solutions.

Cumberland will manufacture these products with a level of craftsmanship and quality that raises the level of our competition, while maintaining an affordability that does not limit our markets.

Sophisticated design

Superior technology

Timeless quality

*...Elements of a true classic*

www.cumberlandfurniture.com

## Fabrics and Leathers

Prices for all seating are graded in programs for Arc-Com and Designtex fabrics and for Elmo leathers. See the Fabrics and Leathers page for complete listings.

## C.O.M. (Customer's Own Material) and C.O.L. (Customer's Own Leather)

When using COM or COL ship materials freight prepaid to our factory:

Cumberland Furniture  
321 Terminal Street SW  
Grand Rapids, MI 49548

Each package must be identified and marked with:

1. Name of customer
2. Customer's purchase order number
3. Our acknowledgement number
4. The product name on which the fabric or leather is being applied

Cumberland reserves the right to reject any COM or COL that we feel is inadequate for any reason and assumes no responsibility for its overall appearance, flammability, normal durability, color fastness or any other quality after upholstered on a Cumberland product.

## Leather Requirements

One (1) yard of fabric 54" wide equals 18 square feet of leather.

## Fabric Requirements

Yardage requirements shown are based on non-directional 54" wide material applied railroaded. The following conversion chart should be used to determine yardage requirements when COM is less than 54" wide and/or has a repeat of 2" or more. Please contact Cumberland Customer Service if fabric must be cut properly.

Fabric Width	54"	50"	48"	45"	36"
Plain Fabric	0%	10%	15%	40%	50%
2" - 14"	10%	20%	25%	50%	60%
15" - 24"	15%	25%	30%	55%	65%
25" - 27"	20%	30%	35%	60%	70%
28" - 36"	25%	35%	40%	65%	75%

Cumberland reserves the right to railroad or apply fabric according to weave unless instructions specify otherwise. Fabrics are railroaded when possible to avoid seams in large upholstered areas and/or single cushion units. If a fabric is questionable, a cutting of adequate size showing full repeat (if any) should be sent to Cumberland for a fabric quotation.

## Special Flammability Code Requirements

All Cumberland upholstery products are manufactured to meet the requirements set forth in the State of California Bureau of Home Furnishings and Thermal Insulations Technical Bulletin 117. All pieces can also be manufactured to meet additional flammability code requirements. Please contact Cumberland Customer Service with for additional information.

## Woods and Finishes

See Finish Selector and the Woods and Finishes page for complete listing.

Special wood finishes are available at an additional one time charge of \$450 list, unless noted differently in product description. Please contact Cumberland Customer Service for finish matching and approval.

## Stones

There are 15 Cumberland stone choices listed on each page where applicable. See Finish Selector and also the Stones page for a complete listing.

Standard edges include:

- .75" thick bullnose
- 1.5" thick bullnose
- .75" thick top bevel
- 1.5" thick top bevel
- .75" thick reverse bevel
- 1.5" thick reverse bevel

Other stones may be specified for an additional charge. Contact Cumberland Customer Service to request a quote.

## Engineering

Cumberland products have been engineered to provide the structural integrity necessary to assure customer satisfaction in today's office. Specifications of construction techniques for all products are available upon request.

## Purchase Orders and Payments

Are to be sent to:

Cumberland Furniture  
321 Terminal Street SW  
Grand Rapids, MI 49548

See Terms and Conditions of Sale for additional information.

# Prepaid Freight Program

## Cumberland Optional Guaranteed Freight Program

### Shipping

This program offers the opportunity to provide a fixed freight cost at the time of order placement, a service that has typically proven to be very difficult to control. Cumberland has achieved this by negotiating preferential rates with various regional and national freight carriers.

### All you have to do is:

1. Determine the zone to which the Cumberland products are to be shipped.
2. Use the table below to calculate your fixed freight cost as a percentage of the total List Price of your order.
3. Indicate on your purchase order, "Cumberland Freight Program."

### Cumberland will:

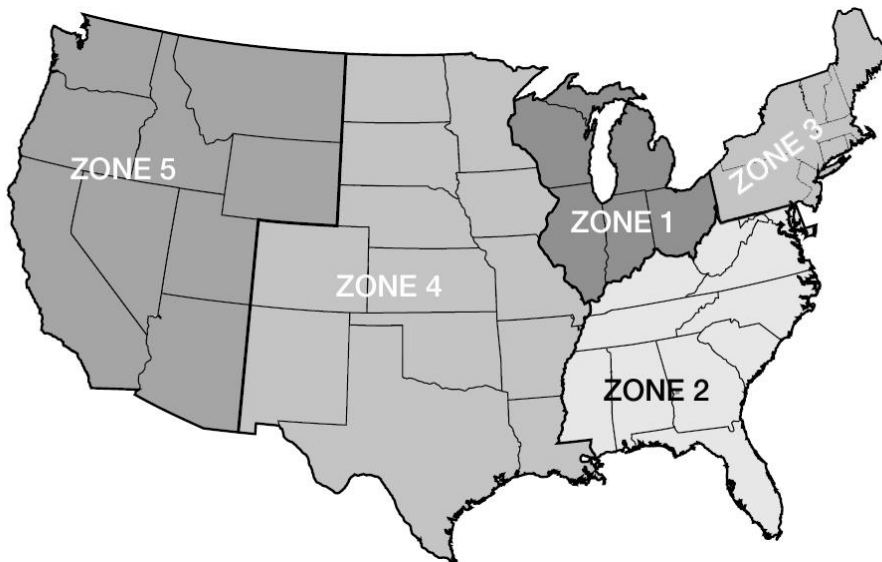

1. Select the carrier to be used.
2. Include your pre-calculated fixed freight rate as a part of your invoice.

### Remember:

1. A minimum charge of \$95.00 net per shipment will apply for all occasional tables
2. A minimum charge of \$150.00 net per shipment will apply for all conference tables and casegoods.
3. All merchandise will be shipped either cartoned or crated.
4. Charges will be for "NORMAL DELIVERY TO THE DOCK" only.
5. A "CALL BEFORE DELIVERY" request requires an additional \$35.00 net charge.
6. Product is shipped FOB CUMBERLAND freight prepaid and added to your Cumberland invoice.
7. Title of goods changes when merchandise leaves Cumberland's dock. Any subsequent damage and all freight claims are the responsibility of the purchaser.

### Zones

Zone 1 (5%)	Zone 2 (6%)	Zone 3 (7%)	Zone 4 (6%)	Zone 5 (7%)
Indiana	Alabama	Connecticut	Arkansas	Arizona
Illinois	Delaware	Maine	Colorado	California
Michigan	Florida	Massachusetts	Iowa	Idaho
Ohio	Georgia	New Hampshire	Kansas	Montana
Wisconsin	Kentucky	New Jersey	Louisiana	Nevada
	Maryland	New York	Minnesota	Oregon
	Mississippi	Pennsylvania	Missouri	Utah
	N/S Carolina	Rhode Island	N/S Dakota	Washington
	Tennessee	Vermont	Nebraska	Wyoming
	Virginia		New Mexico	
	Washington D.C.		Oklahoma	
	West Virginia		Texas	

Capri is a true Cumberland classic, from the refined appearance of its simple yet strong base to the unique characteristics of the available wood and stone tops that grace it.

### Specifications

Side tables are available in stainless steel with wood or stone tops that feature a reverse bevel edge.

### Options – *Specify:*

Top: Plain sliced veneer or 3 grades of .75" Marble, Granite, and Limestone.

Wood: Maple is standard; Ash and Option A wood are available for an additional charge, please see below for specifics.

Finishes: Standard and custom finishes; Cered finish is available on Ash for an additional charge of \$140 list per item.

Metal: Polished or Satin Stainless Steel. Statuary Bronze is available for an additional charge of \$375 list per item.

	Model	Description	Dimensions	Wood			Stone			Weight
				Maple	Ash	Opt A	A	B	C	
● 	3132	Side Table	18" dia x 20.5"h	1363	1463	1538	1757	1835	1914	80
	3133	Side Table	24" dia x 20.5"h	1480	1580	1680	2095	2158	2221	85
● 	3134	Side Table	24" x 14" oval x 20.5"h	1495	1595	1695	1988	2061	2098	80

### Notes on the optional use of Ash

Ash is a very deep-grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP-0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

Refer to Finish Selector for available finish selections and limitations and stone selections

## Cavea Table

Evenly spaced arced metal 'ribbons' connect metal circular or oval rings at top and bottom to form the basis of Cavea's design. The arc of the ribbons can be either convex or concave, allowing opposing shapes to create a new type of nesting. Tables in multiple heights grouped together form sculptural clusters.

### Specifications

Side and coffee tables are available in welded stainless steel with glass or stone tops in a concave or convex shape.

### Options – Specify:

Top: .5" thick clear "Starphire" glass or 3 grades of .75" Marble, Granite and Limestone

Metal: Polished or Satin Stainless Steel. Statuary Bronze is available for an additional charge of \$375 list per item.

	Concave	Description	Dimensions	Glass	Stone A	Stone B	Stone C	Weight

Refer to Finish Selector for available stone selections

The elemental appearance of the Circo table is one reason why it remains popular more than 40 years after its introduction. Any reason lies in its vast selection of sizes and material choices. Our craftsmen are highly skilled at producing these tables at an affordable price, allowing designers free rein in creating interesting table clusters.

**Specifications**

Side and coffee tables are available in maple veneers with a .75" thick Maple top with a .25" radius edge is standard. Also available with 3 grades of .75" Marble, Granite and Limestone or .75" thick painted glass in a range of colors. Veneer self-edge tops are also available as a low cost alternative.

**Options – Specify:**

- Top: .75" thick Maple top with a .25" radius edge is standard. Also available with 3 grades of .75" Marble, Granite and Limestone or .75" thick painted glass in a range of colors. Veneer self-edge tops are also available as a low cost alternative. An eased edge is standard on all stone, glass and self-edge tops.
- Base: Wood is standard. Also available in Standard Grade Laminates. Laminate self-edge is also available for the same price as veneer self edge. Polished Chrome or Statuary Bronze may be specified for an additional charge of \$850 list per item and are available with stone or painted glass tops.
- Wood: Maple is standard; Ash and Option A woods may be specified for an additional charge. Please see far right column for specifics.
- Finishes: Standard and custom finishes; Cerused finishes are available on Ash for an additional charge of \$140 list per item.

**Notes on the optional use of Ash**

Ash is a very deep-grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

**Cerused finish options on Ash**

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

**Notes on the optional use of Option A Woods and Finishes**

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

**Refer to Finish Selector for available finish selections and limitations and stone selections**

## Cross Table

The graceful and distinctive elegance of the Cross table is immediately apparent in its curved rails and tapered legs. Combining stainless steel, wood and glass, the Cross table creates an architectural look that enhances the appearance of any room.

### Specifications

Side, coffee and console tables are available in a hard maple frame with a curved half lap joint on the upper rails. Tapered legs with choice of polished or satin stainless steel risers and a .5" thick clear glass top with a polished edge. 48" coffee tables and all console tables have a lower shelf.

### Options – Specify:

Top: .5" thick clear glass

Wood: Maple is standard

Metal: Metal Risers in polished stainless steel is standard. Satin stainless steel is also available at no extra charge and statuary bronze is available for an additional \$160 list per item.

Finishes: Standard and custom finishes are available

The striking appearance and surprising value of Gala coffee and end tables originate from an intricate design that uses simple, solid-wood components. Square and round tops join tapered legs for a pleasing profile. The interconnected, x-base adds a distinctive and practical detail that makes the tables appropriate for traditional and contemporary settings in offices and public areas.

**Specifications**

Side and coffee tables are available in a hard maple frame with your choice of a round or square top.

**Options – Specify:**

Wood: Maple is standard  
 Finishes: Standard and custom finishes

**Refer to Finish Selector for available finish selections and limitations**

With Geometrics, the straightforward beauty of cylinders and cubes receive a dash of elegance. Slender stainless steel legs raise these forms just enough to highlight their classic detailing. Crafted with a unique parquet pattern, these tables can serve as an accent or as the center of attention.

### Specifications

Side and coffee tables are available in maple veneers quartered and slip matched, supported by stainless steel legs.

### Options - Specify:

**Top:** Parquet matched self-edge veneer top is standard. An optional .75" thick clear glass with clear polished edge or 3 grades of .75" Marble, Granite and Limestone are also available on stainless steel risers.

**Wood:** Maple is standard; Ash and Option A woods are also available for use at an additional charge but not in a parquet pattern.

**Finishes:** Standard and custom finishes; Cerused finishes can be specified on Ash for an additional \$140 list charge per item.

**Metal:** Polished or satin stainless steel.

## Novo Table

This design from the Cumberland archives has aged gracefully. Its clean, modern lines provide a natural complement to the overall look of the Modo collection. A few minor adjustments to proportions to address today's size preferences were all that was required to ready this classic for reintroduction.

### Specifications

Side, coffee and console tables are available in Maple veneers quartered and slip matched with .75" thick clear glass or stone tops.

### Options – Specify:

Top: .75" thick clear glass with clear polished edge or 3 grades of .75" Marble, Granite and Limestone

Wood: Maple is standard; Ash may be specified for an additional \$220 list charge per table. Option A woods may also be specified at an additional charge, please see far right column below for specifics.

Finishes: Standard and custom finishes; Cerused finishes are available on Ash for an additional charge of \$140 list per item.

### Notes on the optional use of Ash

Ash is a very deep grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

### Refer to Finish Selector for available finish selections and limitations and leather selections

A striking table, the Venlo is part of the permanent collection on display in the New York Museum of Contemporary Art. Created by expert steel craftsmen, these tables feature clean lines and bold forms that are characteristic of styling that is versatile and timeless.

### Specifications

Side, coffee, and console tables are available in welded stainless steel with wood, glass, or stone tops, supported by stainless steel pins.

### Options – Specify:

Top: .75" thick wood or 3 grades of .75" Marble, Granite and Limestone or .75" thick clear glass or painted glass in a range of colors. \*Note: Model 3084 is not available with stone.

Wood: Maple is standard; Ash and Option A wood are also available.

Metal: Polished or Satin Stainless Steel. Statuary Bronze is available for an additional charge of \$375 list per item.

Finishes: Standard and custom finishes; Cerused finishes can be specified on Ash for an additional \$140 list charge per item.

### Notes on the optional use of Ash

Ash is a very deep-grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

**Refer to Finish Selector for available finish selections and limitations**

The triangle, known for its strength in many modern architectural applications, was the inspiration for this classic from the Cumberland archives. The X Table is a strong yet simple and elegant table that has been slightly restyled to compliment today's modern look.

### Specifications

Side and coffee tables are available in welded stainless steel with a maple box matched pattern veneer top that mimics the X theme of the base.

### Options – Specify:

Top: Maple veneer in a box matched pattern is standard, Ash and Option A woods are available for an additional charge, but not in a box matched pattern.

Finishes: Standard and custom finishes; Cerused finishes can be specified on Ash for an additional \$140 list charge per item.

Metal: Polished or Satin Stainless Steel. Statuary Bronze is available for an additional charge of \$375 list per item.

	Model	Description	Dimensions	Maple	Ash	Option A	Weight

The Lara chair and sofa reinterpret the classic club chair form by adding subtle curves to create a feminine silhouette that communicates comfort. Seat surrounds begin wide at the base and taper to a slim profile at the top. The backs of both chair and sofa echo these lines by gently sloping outwards from the base to the top. Wood legs provide a solid yet understated base.

**Specifications**

Fully upholstered lounge chair and 2-seat or 3-seat sofa are available with fixed cushions and a wood base. Both sofas come with two (2) seat cushions.

**Options – Specify:**

Upholstery: Com/Col, Fabric and Elmo Leather program

## Livy Chair

The complete wood surround of this side chair was designed with careful attention to the proportioning of the deeper seat cushion, fully upholstered back and slightly splayed overall form. An option for a lower arm height transitions this piece from a guest chair to a lounge piece.

### Specifications

The high arm chair has upholstered interior arm panels, the low arm version has a wood interior. The chair frame is constructed of hard maple solids and maple veneers quartered and slip matched. It is also available in Ash.

### Options – Specify:

Wood: Maple is standard; Ash is available at an additional \$200 list charge per item.  
 Upholstery: Com/Col, Fabric and Elmo Leather program  
 Finishes: Standard and custom finishes; Cerused finishes can be specified on Ash for an additional \$140 list charge per item.

Model	Description	Dimensions	YDS	SF	COM	COL	Fabric Grades				Leather		Upcharge Ash
							1	2	3	4	S	B

### Notes on the optional use of Ash

Ash is a very deep grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

**Refer to Finish Selector for available finish selections and limitations**

**Refer to pages 62–63 for more information on Graded Fabrics and leathers**

## Ovid Seating

This small-scale lounge chair is perfectly proportioned for comfort in compact spaces, whether an efficient reception area or a trim private office. Sofas in 2- and 3-seat versions expand the ways this design can be used throughout interiors.

### Specifications

Fully upholstered lounge chair and 2-seat or 3-seat sofa are available with fixed cushions and wood feet. Both sofas come with two (2) seat cushions.

### Options – Specify:

Upholstery: Com/Col, Fabric and Elmo Leather program  
 Finishes: Standard and custom finishes  
 Cushions: Foam is standard. Down-wrapped is available at an additional charge, please see far right column below for specifics.

The Saga, featuring European design influences, has proven that subtle design and seating comfort form an excellent marriage with one another. A great deal of thought has gone into the ergonomic shaping of the seat and backrest creating a great deal of comfort and support. Furthermore, the chair is excellent at multitasking serving for use as a conference, dining, or guest side chair.

**Specifications**

Fully upholstered Armchair is available with fixed cushions and wood or optional black caster feet.

**Options – Specify:**

Upholstery: Com/Col, Fabric and Elmo Leather program

## Sella Seating

The design of Sella seating takes its cue from the enduring shape of the cube. Three versions—a lounge chair plus 2- and 3-seat sofas—provide options for furnishing a complete reception area. All models feature fine detailing on the back banding and interconnection of the arm into the back panel.

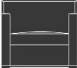

### Specifications

Fully upholstered lounge chair and 2-seat or 3-seat sofa are available with fixed cushions and a wood base. The 2-seat sofa comes with one (1) seat cushion and the 3-seat sofa comes with two (2) seat cushions.

### Options – Specify:

Upholstery: Com/Col, Fabric and Elmo Leather program

### Notes on the optional use of Ash

Ash is a very deep grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

### Standard Edges

Bullnose Edge

Ellipse Edge

Reverse Bevel Edge

**Refer to Finish Selector for available finish selections and limitations**

The design of the Castello conference table combines a wide variety of table top designs with a large selection of veneers and 15 different standard stone insets. The thoughtful addition of optional data and electrical features incorporate technology while simultaneously concealing cords and wires.

**Specifications**

A stone inset conference table with choice of bullnose, ellipse or top beveled wood edge. The stone top is raised 1/8" above the wood edge and has a bevel on it. The standard base is a wood veneer or metal cylinder base. Options include power/data, custom bases and solid surface material insets. It can be specified with a laminate inset top, special sizes, special edge profiles, custom bases, and power/data units.

**Options – Specify:**

- Wood: Maple, Ash, Cherry, Walnut or Mahogany are available as standard.
- Finishes: Standard and custom finishes; Cerused finishes may be specified on Ash for an additional \$140 list charge per item.
- Edge Profiles: 1.75" thick Bullnose, Ellipse, and Reverse Bevel
- Stone Options: Marble, Granite and Limestone are available, see finish selector for more details.
- Base Options: A veneer cylinder base is standard, Polished or Satin chrome or Statuary bronze is available for an additional \$450 list per base.
- Base Features: Optional access door is available for an additional \$350 list charge per base. For additional Data/Electrical components please review the Data/Electrical Page in the back of the Conference Table Section.

**Refer to Finish Selector for available finish selections and limitations and stone selections**

The design of the Metros conference table combines the round and race track table top designs with 15 different standard stones to be used for the table top. The thoughtful addition of optional data and electrical features incorporate technology while simultaneously concealing cords and wires.

**Specifications**

A stone top table with choice of wood veneer or metal cylinder bases. It is offered in 18 standard stone selections or special marble and granite can be specified. The standard top thickness is 3/4" with choice of bull nose, bevel or reverse bevel edge profile. Options include a 1 1/2" thick built up edge, with bull nose, bevel or reverse bevel edge profile and Power/data and custom bases.

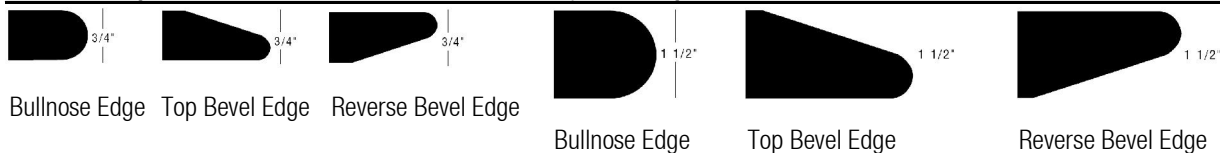

**Options – Specify:**

- Edge Profiles: .75" thick Bullnose, Ellipse, or Reverse Bevel is standard; 1.5" thick Bullnose, Ellipse, and Reverse Bevel is available for an additional 30%
- Stone Options: Marble, Granite and Limestone are available, see finish selector for more details.
- Base Options: A veneer cylinder base is standard, Polished or Satin chrome or Statuary bronze is available for an additional \$450 list per base.
- Base Features: Optional access door is available for an additional \$350 list charge per base. For additional Data/Electrical components please review the Data/Electrical Page in the back of the Conference Table Section.

6827	Round Conference Table	60" dia x 29"h	6	1	1	7115	9604	225

Round

**Notes on the optional use of Ash**

Ash is a very deep grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

**Cerused finish options on Ash**

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

**Notes on the optional use of Option A Woods and Finishes**

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

**Refer to Finish Selector for finish selections and limitations**

The design of the Savona conference table combines a simple yet elegant frame design with a round or race track table top design that is available in 15 different standard stones.

**Specifications**

A classic style marble or granite top table with a polished chrome metal "X" base. The standard top thickness is 3/4" with choice of bull nose, bevel or reverse bevel edge profile. Optional 1 1/2" thick built up stone edge with bull nose, bevel or reverse bevel edge profile can be specified.

**Options – Specify:**

Edge Profiles: .75" thick Bullnose, Ellipse, or Reverse Bevel is standard; 1.5" thick Bullnose, Ellipse, and Reverse Bevel is available for an additional 17%

Stone Options: Marble, Granite and Limestone are available, see finish selector for more details.

Base Options: A chrome "X" base with levelers is standard. Polished or Satin chrome is standard. Statuary Bronze is available for an additional charge of \$375 list per item.

### Notes on the optional use of Ash

Ash is a very deep grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP□2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

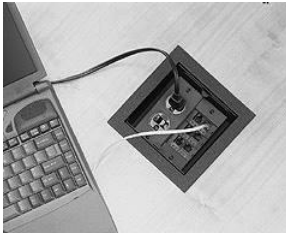

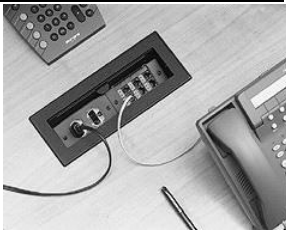

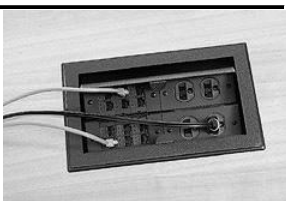

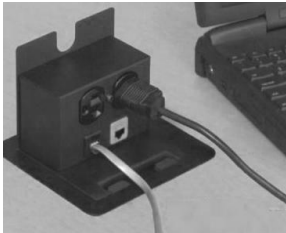

### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

**Refer to Finish Selector for available finish selections and limitations**

Cumberland's line of power taps is adaptable for use in conference tables with a wide variety of data and communication modules to meet your specific data needs in a range of aesthetic and functional options. All these solutions have appropriate wiring channels below to work surface and wire routing through table bases, if base is conductive to that (non-accessible bases will have surface mounted wire feeds to the floor). These power and data wire management systems are some of the finest and best looking on the market. These units not only put data and electric hook-up right at your fingertips, they also allow you to change your data modules as your needs change. Each of these units can also be configured for hard wire installations.

### Flush Mount and Under-Surface Modules

Model	Description	Dimensions	List
5001	Dual covers meet in the center and discreetly slide down the side, out of the way. They come standard with 2 electric modules and 6 data modules. Other options available. Finish: Matte Black Metal	6.875"w x 6.875"d	895
			
5002	One flip up cover slides out of sight. They come standard with 2 electric modules and 6 data modules. Other options available. Finish: Matte Black Metal	10.75"w x 4.0625"d	610
			
5003	Dual covers meet in the center and discreetly slide down the side, out of the way. They come standard with 4 electrical modules and 12 data modules. Other options available. Finish: Matte Black Metal	10.75"w x 6.5"d	960
			
5004	A compact and economical choice that is designed for the single user. A simple lift of a hinged cover allows the communications unit to snap in place to access power, voice and data outlets. Includes 2 electric modules and 2 data modules. Finish: Matte Black Metal	4.875"w x 4.5625"d	350
			

Model	Description	Dimensions	List
5006	Under surface or apron mounted with 3 electrical modules and 3 data module. 72" single circuit power cord and face plate. Finish: Black Matte Metal	9"w x 2"d	375

Model	Description	Dimensions	List
5007	Under surface mounted power and communications module with custom hinged access door flush with surface. Access door is standard with matching veneer panel but can also be specified in contrasting veneer or metal. Power and communications module includes 4 electric modules and 4 data modules. 72" single circuit power cord. Two circuit unit with isolated ground receptacles and hard wired is also available. Please contact Cumberland customer service for pricing and specifications. Note: Not available on stone top tables.	13.5"w x 6"d	995

### Retractable Pop-Up Power/Communications Modules

Model	Description	Dimensions	List
5005	The push open/close power and voice communications center. Standard with 4 electrical modules and 4 data modules. Veneer top and 72" single circuit power cord. Each of these units can also be configured for hard wire installations. Finish: Veneer or optional stainless steel or brass. Note: Not available on stone top tables.	5" diameter	1175

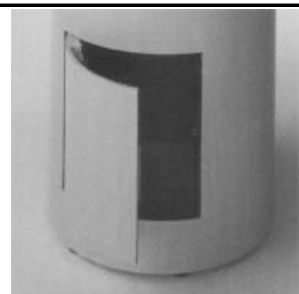

Model	Description	Dimensions	List
5009	Available as a manual push open/close or as a motorized open/close, this unit comes standard with 8 electric modules and 8 data modules. Finish: Veneer		Call

### Additional Data/Electrical Options

Model	Description	Dimensions	List
5008	Side hinged access door for table bases. Standard touch latch door is 8" x 8" square and is located 4" up from the bottom of the base. Available in cylinder, square and radius corner cube bases	8"w x .75"d x 8"h	350

Individually built to the customer's specifications, the Petro offers the little details that can enhance a room and that are often missing from standard production pieces. Attention to detail and capacity for supporting work are evident throughout the credenza's overall form. Multiple options exist for handling files or storing larger materials.

**Specifications**

Available in 6 different models. Individually built to your specifications, the Petro series offers the little details that can be missing from standard production pieces.

**Options – Specify:**

- Counter: Veneer is standard; Marble, Granite and Limestone inlays are available for an additional charge.
- Storage: A locking box/box/file drawer pedestal on the desk and a locking file/file drawer pedestal on the return is standard.
- Wood: Maple, Ash, Cherry, Walnut or Mahogany are available as standard. Option A Woods may also be specified at an additional charge. Contrasting woods are also available.
- Finishes: Standard and custom finishes; Contrasting finishes are also available.

**Cumberland Desks & Credenzas Collection** Parallel Stripe Credenza  
 Designed by Joe Agati

A natural complement to the Parallel Stripe desk, this credenza mirrors the desk's attention to detail and capacity for supporting work. Within the credenza's overall form, multiple options exist for handling files or storing larger materials.

**Specifications**

The Parallel Stripe Credenza is available in a wide variety of sizes and design configurations that can be customized to fit specific needs.

**Options – Specify:**

- Filing: 38" wide lateral file
- Storage: 38" wide storage cabinet with touch latch and adjustable shelf
- Wood: Maple, Ash, Cherry, Walnut or Mahogany are available as standard. Option A Woods may also be specified at an additional charge.
- Finishes: Standard and custom finishes; Cerused finishes may be specified on Ash for an additional \$140 list charge per item.

	Model	Description	Dimensions	Standard Wood	Option A Woods	Weight
	6850	Credenza	69"w x 23"d x 29"h	6837	9230	375

**Refer to Finish Selector for finish selections and limitations**

**This series coordinates with the Parallel Stripe Conference Tables and Parallel Stripe Desks**

The design of the Tantus desk distills function to its essence. Its large scale provides ample surface area for work. The thoughtful addition of sliding top panels incorporates technology and conceals cords and wires. In contrast to its straightforward function, the Tantus desk appeals to the senses with elegant detailing at the corner connection and a wide selection of wood species.

### Specifications

Table desk is available in 2 sizes. It comes standard with a pencil drawer. Powered desk includes sliding panels that provide access to 1 voice/data port and 1 electrical outlet on each side of the desktop, a 6' power cord and wire access through the leg panel. Leg panel can be centered over a floor monument for direct power entry into the leg panel or power connections can be positioned inside the leg panels. Hard wiring with 6' flexible conduit is available for power/data port to meet local code requirements.

### Options – Specify:

Wood: Maple, Ash, Cherry, Walnut or Mahogany are available as standard. Option A Woods may also be specified at an additional charge.

Finishes: Standard and custom finishes; Cerused finishes may be specified on Ash for an additional \$140 list charge per item.

Model	Description	Dimensions	Standard Wood	Option A Woods	Weight
10-6100	Desk, No Power	78"w x 36"d x 29"h	6786	8482	450
10-6110	Desk, No Power	90"w x 40"d x 29"h	8380	10475	550
10-6100-PWR	Powered Desk	78"w x 36"d x 29"h	8790	10486	500
10-6110-PWR	Powered Desk	90"w x 40"d x 29"h	9992	12087	600

### Desk

### Notes on the optional use of Ash

Ash is a very deep grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP□2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

### Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

### Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

### Refer to Finish Selector for available finish selections and limitations

A natural complement to the Tantus desk, this credenza mirrors the desk's attention to detail and capacity for supporting work. Within the credenza's overall form, multiple options exist for handling files or storing larger materials.

## Specifications

Credenzas include a pullout keyboard drawer, wire access through a removable panel in the knee well and a variety of filing and storage configurations with side pulls.

### Options – Specify:

Filing: 38" wide lateral file or 19" pedestal box/box/file or 19" pedestal file/file  
 Storage: 38" wide storage cabinet with touch latch and adjustable shelf  
 Configuration: Specify shell length and the list components from left to right  
 Wood: Maple, Ash, Cherry, Walnut or Mahogany are available as standard.  
 Option A Woods may also be specified at an additional charge.  
 Finishes: Standard and custom finishes; Cerused finishes are available on Ash for an additional \$140 list charge per item.

## Venlo Table Desk

A striking table, the Venlo is part of a permanent collection on display in the New York Museum of Contemporary Art. Created by expert steel craftsmen these tables feature clean lines that create the crisp and sleek look of these tables.

### Specifications

Table desk is available in 2 sizes. The wood top desks are available with an optional pencil drawer or pull writing pad.

### Options – Specify:

- Top: 2" thick plain sliced veneer or 3 grades of .75" Marble, Granite and Limestone or .75" thick clear glass.  
 Note: Wood tops add .75" to the overall listed table height.
- Wood: Maple is standard; Ash and Option A wood are also available.
- Metal: Polished or Satin Stainless Steel. Statuary Bronze is available for an additional charge of \$375 list per item.
- Finishes: Standard and custom finishes; Cerused finishes can be specified on Ash for an additional \$140 list charge per item.
- Accessories: The wood top desks are available with an optional pencil drawer in the center of the desk. The pencil drawer is available for an additional charge of \$690 list per item.

## Custom

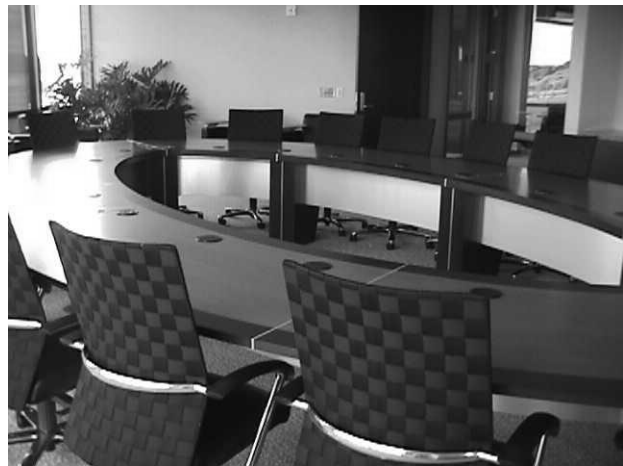

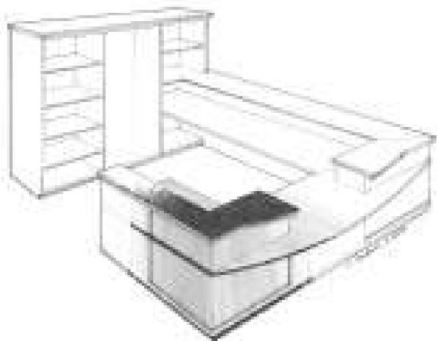

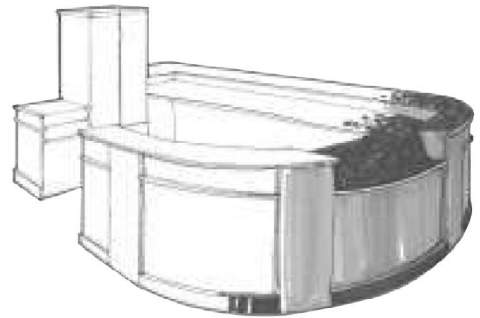

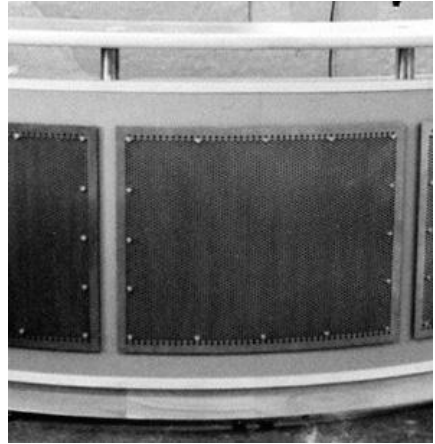

Whether you need or prefer modifying one of our standard products or need to develop a completely unique design, Cumberland can design, engineer, build and deliver it to you. At Cumberland we often create custom conference tables, executive furnishings, reception stations and teleconferencing furniture engineered and constructed to meet your exact specifications.

It is with a sense of pride that the Cumberland custom team exists. We create products that reflect our legacy of quality and incorporate the technological capabilities and craftsmanship that are often missing in the marketplace. When your designs call for custom furniture you expect it to be perfect, at Cumberland we raise the bar in relation to our competitors and deliver products that meet and often surpass your needs and desires. You'll find that Cumberland is a limitless resource for furnishing your office, commercial, institutional and residential environments.

For experienced direction, conceptual guidance and precision production of custom made furniture, or answers to any questions you may have concerning Cumberland or our custom abilities please call, 800.401.7877.

# Leathers

---

Cumberland offers two grades of leather manufactured by Elmo leather. Each grade offers a wide choice of features and colors. Elmo leather produces leather that is tanned without the use of chrome. This makes the leather completely recyclable and a wise choice for the environment. The leathers are also water and soil resistant and meet fire retardancy regulations as well as the ability to perform in a heavy use environment.

## **S Grade Leathers – Elmo's Elmosoft Leather**

*Available at \$15.50 list per square ft.*

Elmosoft is a soft pliable semi-aniline leather imported from Scandinavia, it has a slightly pigmented and protective top finish. Outstanding comfort combined with excellent durability and an extensive color selection makes it very suitable for public environments. Natural characteristics add to the elegant character of the leather. This leather is made without chrome tanning agents and can be recycled and is suitable for landfill disposal. Pique-Diamond pattern piercing is available at no additional charge. Please contact Cumberland customer service for samples.

## **B Grade Leathers – Elmo's Rustical Leather**

*Available at \$18.00 list per square ft.*

Rustical is a full aniline through dyed Scandinavian cowhide, with an unpigmented protective top finish, the process makes it exceptionally soft and gives it a very natural look. Full anilines are produced for their natural characteristics and beauty, these products by intent contain minimal finish. These are not recommended for high traffic public areas. Suitable for Executive areas. Pique-Diamond pattern piercing is available at no additional charge. Please contact Cumberland customer service for samples.

## **Faux Leather – Designtex Masquerade**

Cumberland's leather alternative is Designtex Masquerade. It is graded in as a Grade 3 textile. Contact DesignTex for samples.

## **Leather Care**

Dust monthly with a soft cloth. Spilled liquids must be wiped up immediately with a moist cloth, as liquids can be absorbed within a few hours or less. Use a cleaner for stubborn spots. Never use saddle soap, ivory soap or water solutions. Never soak the leather with water or any other cleaning agents. Conditioning the leather once or twice a year with a commercially available product will restore the leathers natural moisture, preserving its softness and providing protection from dust and liquids.

# Fabrics

Cumberland offers four grades of fabrics manufactured by ArclCom and DesignTex. Each grade offers a wide choice of features and colors. For your convenience we listed the grade classification for the two manufacturers below:

For samples and technical information please contact ArclCom and DesignTex

ArclCom 1.800.223.5466 www.arc-com.com

DesignTex 1.800.221.1540 www.dtex.com

- All Cumberland upholstery products are manufactured to meet the requirements set forth in the State of California Bureau of Home Furnishings and Thermal Insulations Technical Bulletin 117.
- Scotchguarding - \$100 net minimum charge – 42+ yards \$3.60/yard net (includes freight and handling)
- Flameproofing - \$150 net minimum charge – 57+ yards \$1.75/yard net (includes freight and handling)
- Refer to ArclCom and DesignTex catalogs regarding specifications for flammability codes met by fabrics
- Cut yardage can be purchased directly from ArclCom and DesignTex

\*Note: Above charges per fabric, per colorway.

# Finishes

Cumberland furniture achieves a harmony of expression across all its products through an offering of three versatile palettes – light, medium and dark. The light palette features timeless neutrals of muted coloration. The medium palette presents a range of browns in classic, stylish tones. The dark palette achieves its richness through a selection of elegant hues. Each palette enables a wide scope of expression/ Blending palettes multiplies the possibilities. The result expresses harmony for the eye that is sophisticated and enduring.

	Light		Medium		Dark	
<b>Maple</b>	MP-0	Natural	MP-06	Caramel	MP-11	Taro
	MP-02	Straw	MP-07	Pecan	MP-12	Bark
	MP-03	Smoke	MP-08	Java	MP-13	Ink
	MP-04	Putty	MP-09	Currant	MP-14	Bison
	MP-25	Toffee	MP-45	Ginger	MP-16	Cinnabar
<b>Ash</b>	AS-4C	Fog, Cerused	AS-7C	Truffle, Cerused	AS-14C	Poppy, Cerused
<b>Option A</b>	FS	Figured Sycamore	FM	Fiddleback Mahogany	RW	Santos Rosewood
	AB	White Ash Burl	WB	Walnut Burl	EN	Quartered Macassar Ebony

## Notes on the optional use of Ash

Ash is a very deep-grained wood, resulting in high contrast between the surface and the deepest part of the grain. It is different from Maple in this regard, as Maple tends not to have any grain depth. Ash is also darker in color than maple and some of our lighter standard finishes cannot be achieved on it; MP- 0 MALT, MP-2 STRAW. All other standard finishes in the 2003 palette can be used on Ash.

## Cerused finish options on Ash

To accentuate the deep grain of Ash we have developed a Cerused finish in each of the light, medium, and dark palettes. This involves a hand wiping process where a lighter color glaze is left in the deep grain to contrast with the surface color.

## Notes on the optional use of Option A Woods and Finishes

Option A Woods are species, not finishes. By default, they are offered as shown on the samples and in the finish selector with little or no stain added, to show their natural beauty. Option A Woods can also be finished in the standard MP-Finishes, as long as the Option A Wood is lighter than the standard finish you select.

## Notes on Casegoods

Cumberland casegoods are available in several different veneer and lumber species, whereas our occasional tables, benches, and all of our standard finish samples are on Maple. The Standard MP colors are also available for the additional species offered with the Cumberland casegoods. Due to natural graining differences, they make look slightly different, however, the color will be the same.

- Standard Finish is Semi-pore Medium Sheen 30-35 Catalyzed Lacquer Finish
- Full filled finishes require an additional charge of 15%
- Custom match finishes are a one time charge of \$450 list
- Full filled high gloss finishes require an additional charge of 20% and are not recommended for high traffic surfaces

## The following Standard Brayton and Steelcase finishes are matched an no additional charge:

Brayton		Steelcase		
W-10	Natural	3412	Natural Cherry	3592 Blonde on Maple
W-15	Light Cherry	3422	Medium Cherry	3632 Medium Oak
W-20	English Oak	3512	Natural Maple	3642 Natural Oak
W-30	American Walnut	3542	Medium Maple	3712 Natural Walnut
W-40	Cordovan Walnut	3562	Linseed on Maple	3722 Dark Mahogany on Walnut
W-45	Mahogany	3572	Amber on Maple	3742 Autumn Walnut
W-60	Ebony	3582	Winter on Maple	3772 Medium Mahogany on Walnut
				3792 Black Walnut

# Stones

---

Cumberland furniture achieves a harmony of expression across all its products through an offering of three versatile palettes – light, medium and dark. The light palette features timeless neutrals of muted coloration. The medium palette presents a range of browns in classic, stylish tones. The dark palette achieves its richness through a selection of elegant hues. Each palette enables a wide scope of expression/ Blending palettes multiplies the possibilities. Marble and granite are natural materials that vary in color and veining. Samples indicate general characteristics only. Many marbles have natural geological flaws and voids which are repaired according to the Marble Institute of America.

# Glass

---

Cumberland furniture achieves a harmony of expression across all its products through an offering that includes a variety of glass options. Painted glass allows timeless neutrals, classic, stylish tones and elegant hues to be incorporated into any design creating wide scope of expression and multiple design possibilities. The result expresses harmony for the eye that is sophisticated and enduring.

## **Standard Glass**

Our standard glass is clear flat glass. As its name implies, clear glass is transparent and colorless. However, due to the inherent properties of glass, a green cast may become visible in clear glass when an object is placed part way under the glass. The part of the object under glass will appear greener. As the glass gets thicker, the density of the greenness in the glass will increase.

## **Starphire Glass**

*Starphire®* glass is an ultra-clear glass designed for a wide variety of commercial applications. It maintains its remarkable clarity in any thickness. Any green in the glass is virtually invisible to the human eye and objects placed under the glass appear the same in color as object not under glass.

## **Painted Glass**

Painted glass makes it possible to incorporate whites, pastels and soft earthtones in your designs. Five colors representing a harmony of expression are currently available. The paint color is applied to the underside of the glass and the color shines through the top of the glass. However, due to the inherent nature of glass, actual colors will vary depending on the thickness of the glass; the thicker the glass, the greener the color. Painted glass on occasion will also exhibit shadow lines that are parallel to the outside edge on the under side of the glass. These are caused by light entering thru the edge and bevel of the glass and casting shadows. These are not imperfections in the glass and cannot be controlled. Custom color matches are available for a one-time charge of \$450 list.

## **Color samples are available upon request of the following five colors**

Annubis	Dark gray with a hint of red
Burnished Mahogany	Deep blood red
Ice	Bright pure white
Haze Green	Light mint green
Wolf	Gray with a hint of green

# Care Instructions

---

Cumberland's surface finishes will retain their natural beauty for life if proper care is taken and a stable environment is provided. Due to the inherent nature of wood products, we cannot guarantee any product stored or set in place in an environment where temperature and humidity are not controlled. Extremes in humidity and temperature can cause wood components to expand and contract and may lead to panel warpage and finish checking and cracking. A stable and properly humidified environment is required to avoid these conditions. Temperatures must be maintained within a range of 50-80 degrees F (or 10-27 degrees C); the relative humidity must be maintained between 25% and 40%. These conditions are also recommended for human health standards.

## **Wood Surfaces**

Cumberland utilizes a multi-step finishing process ending in the application of a clear catalyzed lacquer. This lacquer is applied in three consecutive stages. The finishing material provides a very durable and resistant surface that can withstand a variety of chemical compounds. A list of these compounds can be supplied upon request.

Due to the protection offered by our finishes, the care for our wood surfaces requires gently dusting the surface with a soft, moist, and lint-free cloth. This should then be followed with a drying cloth. A high-grade furniture polish which does not contain silicone, such as Murphy's Oil Soap © and water may be applied with a clean soft cloth. Since dust can act as a potential abrasive, improper rubbing can result in fine hairline scratches. A practice of gentle rubbing only in the direction of the grain of the wood is recommended. Do not use wax or abrasive cleaning compounds.

The use of felt pads under desk accessories and machines is recommended to protect the luster of the finish. Contact between finish and certain plastic compounds may result in discoloration and finish damage.

Cumberland finishes are field reparable should damage occur, professional furniture repair services are recommended.

## **Leather and Fabric Surfaces**

Dust monthly with a soft cloth. Spilled liquids must be wiped up immediately with a moist cloth, as liquids can be absorbed within a few hours or less. Use a leather cleaner for stubborn spots. Never use saddle soap, ivory soap and water solutions. Never soak the leather with water or any other cleaning agents. Conditioning the leather once or twice a year with a commercially available product will restore the leathers natural moisture, preserving its softness and providing protection from dust and liquids.

## **Metal and Glass Surfaces**

Use cleaning cloth moistened with alcohol or normal glass cleaning compounds. Do not use abrasive compounds, as these will scratch the surface

## **Stone Surfaces**

Use cleaning cloth moistened with alcohol or specialized marble cleaning compounds. Spilled liquids must be wiped up immediately with a moist cloth, as the colors of the certain liquids can be absorbed into the stone surface and discolor it. Do not use abrasive compounds, as these will scratch the surface.

Please contact Cumberland customer service with any additional questions about furniture care.

# Environmental Information

---

At Cumberland Furniture we recognize the importance of protecting the environment and using our resources intelligently. In order to operate in a manner that protects the ecosystem in which we operate we are dedicated to reducing, reusing, and recycling throughout the entire business process.

It is the total effects of these procedures –and our continual desire to seek better and more innovative solutions –that leads to long-term improvements in our environment. We are committed to being responsible corporate citizens in every area of our business.

How our policy is implemented

1. During the design phase of a product, the product is designed with a consideration of environmental impact.
2. Lean manufacturing concepts are used to help reduce material waste.

Wood Practices

1. We do not use any endangered rainforest wood species.
2. Of the woods and veneers that we use, they are purchased from companies who practice sustainable forestry.

Packaging Materials

1. Cumberland uses recycled pallets to ensure that fewer trees are cut down.
2. The padding used in the packaging of Cumberland products is designed to provide superior protection with minimum material. The cushioning material may be reused or processed in waste-to-energy facilities. It conforms to the European Packaging Directive "Essential Requirements" 94/62/EC and can be compacted to 10% of its original volume and will not pollute air or groundwater.

3. All corrugated material utilized in packaging are produced from a renewable resource and provide superior protection that is recyclable and biodegradable.
4. Whenever possible, shipments are consolidated to minimize the environmental impact of transportation.
5. All waste generated from the manufacture of our cartons is compacted into bales, recycled into corrugated medium and reused.

Reduce Waste

1. High-tech spray guns in our finish department that increase transfer efficiency by 48% as compared to standard sprayers.
2. Continuous process improvement practices to increase efficiency while decreasing overall waste.

Clean Air Practices

1. Conform to state emissions regulations and fall below levels required for testing.
2. Wood stains, sealers and lacquers have low HAPs.

Supplier Compliance

1. Our supplier's work hard to reduce, reuse and recycle throughout the manufacturing process and work to manage their operations with the least amount of environmental impact possible.
2. Leather: Our leather supplier, Elmo, is chrome free and fully recyclable. Elmo does not use chrome tanning agents that are difficult to dispose of and harmful to the environment. Also, since the leather is recyclable it can avoid ending up in a landfill.
3. Granite: All stone products manufacturing complies with OSHA standards.
4. Glass: Our glass includes recycled glass content and the finished product is 100% completely recyclable and can therefore avoid ending up in a landfill.
5. Powdercoats: Meet the EPA's strict Clean Air Act Standards.
6. Metal: On most of our metal products the finish is stainless steel and not plated chrome. Plating is a noxious process, with environmentally unfriendly waste. Stainless steel looks better, last longer, and is more environmentally friendly. Our stainless steel includes recycled steel content and the finished product is 100% completely recyclable and can therefore avoid ending up in a landfill.

Recycling Initiatives

1. All corrugated material generated or used to support our operations is recycled
2. Whenever possible, Cumberland uses materials that are made from recyclable materials.
3. Waste solvents from our finishing processes are recycled or used in a fuel to waste energy program and are never placed in a landfill.
4. Recycling cardboard for the past 7 years
5. Scrap woods are recycled.

Land Use Guidelines

1. Our manufacturing and office facilities are all reclaimed urban manufacturing facilities that were constructed near existing highways, water, sewer, and utilities in order to not participate in urban sprawl and the impact that it has on the environment.

Energy Efficiencies

1. Restroom lights are sensor activated

Lifecycle Analysis and Considerations

1. Cumberland's classic designs, use of the finest material available, and superior craftsmanship prolong the life of the piece.

# Terms and Conditions

---

## Order Entry

To expedited order entry and to ensure proper service, fax all orders directly to the factory: 616.475.5020

## Prices

Prices listed are suggested List prices. All prices are listed F.O.B. Factory and are subject to change without notice. Orders subject to prices stated on acknowledgement. List Prices do not include the following charges: shipping, storage, insurance, sales tax and installation.

## Terms

A 50% deposit is required upon placement of order, the balance being due before shipment. Accredited open account customers placing standard orders are subject to our terms of Net 30. If timely payment is not made, interest will be charged at a rate of 1.5% per month. Any collection costs and/or attorney's fees incurred, as a result of untimely payments, will be charged to the buyer. Cumberland, at its discretion, may cancel or change terms and may request advance payment at any time.

If credit has not been established, full payment must accompany the order. Cumberland also accepts MasterCard and Visa.

On all deposit/CBD order, final payment must be received prior to delivery. If final payment is not received within 10 days after the invoice is issued, a storage charge and charges for transfer to storage will be added to your invoice.

**All terms extended are in the sole discretion of Cumberland's credit department and must have their approval. No salesperson, representative or any other employee or agent of Cumberland, other than Cumberland's credit department, has any authority to alter the terms and conditions of sale in any manner or form.**

Custom Order Requirements: One half deposit required upon placement of order, balance due before delivery or net 30 days for open accounts.

## Orders

Orders must be in writing and sent to Cumberland Furniture. All orders are

subject to approval by Cumberland's Order Department. Approval of an order is evidenced by issuance of our formal acknowledgement, which are subject to the terms and conditions set forth herein, constitute the agreement between the purchaser and Cumberland and supercede all prior oral and written statements regarding the order. These terms and conditions of sale set forth herein and those set forth on the purchaser's order form, our terms and conditions of sale will govern.

## Change Orders

Requests for changes to orders must be made in writing. Cumberland reserves the right to charge for labor, materials and administrative costs for order changes.

## Cancellation

Orders may not be terminated without Cumberland's consent. Cancellation cannot be accepted after fabric is cut, order is in production or materials have been placed on order.

## Shipping

Complete instructions as to shipping and route must be given when an order is placed. If such instructions are not received with the order, then we will exercise our best judgment in selecting a carrier and route and send the item via our prepaid freight program, adding the freight to the invoice. We reserve the right to make partial shipment.

## Shipping Weights

They are noted for the convenience of our customers. They are best estimated and are subject to variation without notice. Cumberland is not responsible if these weights vary from those reported by carrier.

## Delivery

All quoted delivery dates are merely best estimates and are subject to delay or failure of delivery due to labor disputes, war, riot, compliance with government regulations, failure or delay of source of supply transportation difficulties, acts of God or any other causes beyond our control. All risk of loss or damage to the merchandise is picked up by the carrier.

## Returns

A written Return Authorization (RA) form must be issued by Cumberland prior to the return of any merchandise. Unauthorized returns will be refused by our receiving department. Return merchandise must be received in original carton and in saleable condition.

## Claims/Freight Damages

Cumberland is not responsible for damage to merchandise in transit or in storage. Title and

risk of loss pass to the customer upon delivery to carrier from Cumberland's distribution point. Cumberland furniture is carefully inspected and securely packed prior to shipment. Customer must examine all merchandise before accepting delivery from carrier. If there is any visible damage to the carton, a notation of such must be made on

the Bill of Lading before signing. All claims for damage, shortage or loss must be filed with the carrier within 5 days of delivery and all packing materials must be retained until inspection is made. Claims for concealed damage must be filed with the carrier within 5 days of delivery. Failure to make such claims shall constitute full acceptance of merchandise.

## Storage

Cumberland does not have a storage space for completed orders. If customer will not accept delivery of merchandise when Cumberland is ready to make shipment, Cumberland reserves the right to transfer the goods to storage and store at customer's risk and expense. Such storage shall be deemed delivery for all purposes including invoicing and payment. All costs associated with storage will be charged to the customer.

## Materials

Due to natural variations beyond Cumberland's control, all items including but not limited to fabric, leather, wood, steel, glass or marble are sold subject to variations or irregularities of color, grain and texture. Cumberland does not guarantee matching of color, grain or texture.

## Designs

All products shown in our catalog and our price list are, and remain, the exclusive property of Cumberland Furniture and Cumberland Furniture has the exclusive right to manufacture the models shown. All dimensions shown are approximate and drawings shown are for reference only. Cumberland reserves the right to make change in price, dimension, design, construction and/or materials used without prior notice.

**Cumberland's price list and catalog are not available to the general public, but are only for the use of the trade for purposes of purchasing Cumberland products.**

## Special Design Variations

Cumberland can manufacture special designs to fill your needs. Before an order is approved, we must receive drawings and/or specifications for quotation. Our quotations are valid for a period of 60 days. A fifty percent deposit is required upon placement of all special orders.

# Warranty

---

## Limited Warranty

Products manufactured by Cumberland are warranted to be free of defects in design, material and workmanship under normal use and care for five (5) years of single-shift service, from the date of delivery, with exceptions noted below:

1. All products and components not listed below five (5) years.
2. High wear parts such as casters, gas lifts, fabrics and other covering materials (2) years.
3. Electrical components and custom-made products not described in Cumberland's catalog-one (1) year.

Other exceptions: CUMBERLAND does not warrant matching of color, grain or texture of wood or leather because of natural color variations which cannot be controlled. Damage in transit or occasioned by accident, negligence, abuse or alteration is not included in this warranty. CUMBERLAND does not warrant the appearance, behavior, or durability of "customer's own material" or "customer's own leather" applied to CUMBERLAND products. Upholstery materials not warranted against fading or irregularity in register.

This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new Cumberland products through authorized dealers, directly from Cumberland or from others specifically authorized by Cumberland to sell its products.

Cumberland's sole obligation under this warranty is to repair or replace, at Cumberland's discretion, products which prove to be defective during the warranty period. Purchasers may be required to establish that a claim is within the warranty period. To initiate a warranty claim, the purchaser should contact an authorized Cumberland dealer.

NO OTHER WARRANTY, INCLUDING ANY WARRANTY OF MERCHANTABILITY OF FITNESS FOR ANY PARTICULAR PURPOSE IS MADE BY CUMBERLAND EITHER EXPRESSED OR IMPLIED. CUMBERLAND SHALL NOT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES ARISING FROM ANY PRODUCT DEFECT.

CUMBERLAND WARRANTY APPLIED ONLY TO CUMBERLAND products. Warranty does not apply to attachments to CUMBERLAND products. Any warranty expressed or implied is invalid when CUMBERLAND components are used in conjunction with any components not manufactured or sold by CUMBERLAND. Products not installed or used in accordance with CUMBERLAND installation and/or application guidelines are not included in this warranty.

## Applicable Law

This agreement is governed by the laws of the State of Michigan. All parties agree that any lawsuit or proceeding or other form of litigation arising directly or indirectly out of this Agreement shall be litigated only in Courts within the State of Michigan and City of Grand Rapids, and both parties consent to the jurisdiction of any court located within the State of Michigan and City of Grand Rapids. This agreement supercedes all prior writings and may not be modified except in writing signed by one of our officers.
