The Mintra Method

Mintra's e-learning solutions are fully compliant with international standards such as AICC and SCORM. This enables the integration of our training programs with your Learning Management Systems (LMS). Mintra has taken on a leading role in the next generation of training solutions. This next generation includes the integration of technical and operational documentation and systems for Enterprise Resource Planning (ERP).

Mintra's Tailor-Made E-learning Solutions

Mintra's e-learning solutions have covered a wide variety of topics.

These include:

- Equipment maintenance and repair
- Operational procedures
- Environmental, health and safety
