TESTIMONIALS

OEF are our first choice economic forecasting organisation, serving our needs for local, regional, UK and global analysis. Over the 10 years we have subscribed to OEF, we have been most impressed by the excellent advice and friendly service provided by its high quality staff.

BOOTS COMPANY PLC, UK

Over the years, OEF has developed services that have met well the changing needs of ICI. Now most of the input to both our monitoring and forecasting processes is taken directly from the OEF website.

OEF have shown themselves capable of carrying out additional work we have requested at short notice. Many of the businesses we have disposed of in recent years are using OEF's services in lieu of the economic advice previously provided to them from the ICI economics function.

ICI PLC, UK

The OEF team provides economic analysis of the highest quality. The World Model is a valuable tool for our work. It covers a vast number of countries, and is both accurate and user-friendly.

FIAT SPA, ITALY

OEF's high quality analysis has been invaluable in our efforts to improve the tax system faced by multinational companies in a range of developing economies.

INTERNATIONAL TAX AND INVESTMENT CENTER, USA

OTHER SERVICES

Economic Forecasting

The International Economy

Providing detailed projections for over 70 economies, updated each month, including the key emerging markets.

International Industrial Sectors

Forecasts cover the full spectrum of industrial sectors in the US, Japan and major Western European economies.

The UK Economy

Covering the macroeconomy, detailed analysis of over 70 industrial sectors, and the 13 government office regions.

UK Consumer Spending in Detail

Projections for over 50 categories of spending for the UK as a whole and across the 9,000 postal sectors.

User-Friendly Economic Models

The models we use to produce our forecasts, developed with our own user-friendly software, are also available to clients who wish to develop their own scenarios or conduct 'what if' simulation analysis.

Economic Briefing

Daily briefings covering economic and political developments in around 70 countries, with detailed analysis of issues affecting or likely to affect businesses, financial markets and the investment climate. In addition, clients are encouraged to consult the OEF analysts on the content of the briefings and other issues of interest.
