GUARANTEED CASH FLOW TO  HELP YOUR BUSINESS GROW.

the power to make things happen.

Money fuels business. When you have cash flow coming in, your position is strengthened. When cash flow stalls, your ability to make things happen is compromised. However, there is also a gray area in business. It's that period of financial limbo where you're cash rich on paper, yet the money you need today is caught up in a lengthy list of outstanding invoices and out-of-pocket expenses. This is why you need the Paragon Factor.

Paragon serves as your cash flow engine. The process is called "factoring" and in the simplest terms it means Paragon purchases your outstanding invoices, advances you up to 90% of the balance immediately, and pays the remaining balance when your clients settle in full. In other words, revenue flows directly and instantly to you. No delays. No problems. No collection hassles. We can assume all risk and responsibility for client payment. In return, Paragon receives a small financial fee at the end of the process. You pay zero up-front costs and each job is handled individually, so you're never locked into a long-term contract.

The Paragon Factor gives you the power to make things happen. Now.
